Key Insights

Sales & Profitability

Which categories/products drive revenue vs. profit, and where is discounting hurting?

- Electronics leads revenue (**53.23%**) but only **30.84%** of profit — a clear revenue-profit gap
- Fashion drives **20.95%** of profit despite lower revenue — highest margin category
- Discounts above **20%** turn orders unprofitable (21-30% and 31-40% buckets both show net losses)
- Bottom 5 products (mostly Electronics) caused a combined loss of **₹1,011**

Customer Behavior

Who are the highest-value customers, and repeat vs one-time revenue split?

- **275 of 326 customers (84%)** are repeat buyers, driving **95.2% of total revenue**
- One-time buyers contribute just **4.78%** of revenue despite being **51 customers**
- Consumer segment is the largest base (**216 customers**); avg revenue/customer is **₹726**
- Customers order an average of **3.07 times**; Credit Card is the top payment method

Returns & Operations

What's driving returns, and which categories/shipping modes hurt profit?

- **8.20%** overall return rate → **₹18.37K revenue** and **₹5.12K profit (7.18%)** lost
- **Fashion** has the highest return rate (**14.16%**), more than 2x the next category
- **Express shipping** has the highest return rate (**8.56%**); Same-Day the lowest (**7.95%**)
- Same-Day shipping delivers the best margin (**35.64%**) despite fewer orders

Marketing & Seasonality

Which channel acquires the most valuable orders, and how should Q4 shape planning?

- **Organic Search** is the top channel — **₹63K revenue, ₹18K profit**
- Affiliate is the weakest performer (**₹23K revenue, ₹6K profit**)
- **December** is the peak revenue month — plan inventory ahead of Q4
- Weekdays generate **2x** the revenue of weekends (**₹160K vs ₹77K**)
